Notice of Environmental Impact Assessment, Bushman's River Mouth

Dear Sir,

We wish to register as an interested and affected party for the proposed 350Kl reservoir. The ground in question is Portion 6 of the Farm Kwaihoek 349, Alexandria District, Title G158/1970 with an approximate area of 11,434 sq m. We believe that the advert should contain this information.

We are concerned that the Albany Coast Water Board was not notified with respect to the planned activity, as they are the Water Service Providers in this area, and that the Ndlambe, western area Water Services Authority was not notified. The ACWB has ownership of the existing reservoirs.

It will be important to consult with the ACWB and Ndlambe Western area Water Services Authority prior to proceeding with the EIA so that it can be established exactly where the footprint of the reservoir will be and how it will tie into the existing infrastructure. The capacity of the reservoir is also in question as the ACWB have to date to the best of our knowledge not sanctioned any capacity as yet. How is it possible to proceed with an EIA without a plan of the proposed activity? We refer you to the GRN 386 and 387 (2006) of NEMA (1998) Section 24.

It is important to do this prior to the EIA advertisement.

Johann Smuts
Chairman Bushman's River Mouth Ratepayers Association.

Cc Mr.R. Pote (Ndlambe Municipality)
Mr. D. Nicholl (Albany Coast Water Board)

Committee: Johann Smuts (Chairman), Eric Sutton (Vice Chairman), Wendy Grove (Secretary), Charles Sprong (Treasurer), CJF Botha, Schalk Kotze, Dennis Laubscher, Jimmy van Rensberg, Matt Mullins
